Position Available for Geriatrician in Calgary, Alberta

The Section of Geriatric Medicine at the University of Calgary/Alberta Health Services - Calgary zone is recruiting an FRCPC Geriatrician to work on their Acute Geriatric Unit and Geriatric Day Hospital in Calgary, Alberta. There is also an opportunity to provide consultations to long-term care facilities within the Calgary area. The remuneration package is competitive. Successful candidates will be considered for non-tenured appointment within the University of Calgary, and have the opportunity to supervise and teach medical trainees at multiple levels.

The Section of Geriatric Medicine at the University of Calgary is a diverse and enthusiastic group of geriatricians, who are interested in teaching, clinical service, research and quality improvement. We have an active training program accredited by the Royal College. For more information about our Section please visit our website: <http://www.departmentofmedicine.com/geriatric-medicine/>

If you are interested in applying or would like more information please email:
